

Beatview

The Future of Recruitment Starts Here...

AI-powered screening and automated interviews designed to improve hiring decisions while following your rules.

Aligned with Saudi Vision.

Official Saudi Partner
Hunza Care

Trusted by 8,000+ Companies

Beatview is a U.S.-based AI hiring platform used by 8,000+ organizations globally, including well-known companies across multiple industries:

What Beatview Does?

Beatview automates and optimizes the first stage of hiring, helping HR and Talent Acquisition teams identify the right candidates faster — while maintaining full control over hiring rules and decisions.

Automatically screen and rank candidates using AI

Enforce mandatory hiring rules (experience, nationality, eligibility)

Assess candidates through AI video interviews and psychometric assessments

Reduce bias and manual effort in early hiring stages

Make faster, data-driven shortlisting decisions

AI handles the workload. HR stays in control.

Core Features of the Platform

AI Resume Screening

- Automatically analyzes CVs and ranks candidates.
- Filters candidates based on mandatory HR-defined rules.

AI-Powered Video Interviews

- On-demand interviews with custom or AI-generated questions.
- AI-generated insights on communication and role relevance.

Psychometric Assessments

- Measures personality traits, behavior, and cognitive ability.
- Supports evaluation of culture fit and long-term role alignment.

Analytical Reports & Insights

- Clear candidate comparisons and summaries.
- Data-driven shortlisting recommendations.

Resume Bank (Talent Pipeline)

- Searchable database of screened candidates.
- Instant access to high-match talent.

Everything HR needs to shortlist the right candidates in one intelligent platform.

Customization & Security

Branding & Customization

- HR-controlled company branding (logo, colors, interview pages).
- Custom domain for a seamless and trusted candidate experience.
- Personalized email templates and branded candidate communications.

Security & Privacy

- End-to-end data encryption for all candidate information.
- Built-in fraud and integrity detection during interviews.
- Compliance with global data protection and privacy standards.

Validated by Global Organizations

Beatview has significantly improved our hiring process at Tesla. As the Recruitment Lead, I appreciate how its AI-driven video interviews streamline candidate evaluations. The ability to customize questions and receive AI feedback has allowed us to identify the best candidates efficiently. Thanks to Beatview, we've successfully onboarded top talent who align with our innovative culture!

Emily J

Recruitment Lead at Tesla

Using Beatview has transformed our recruitment process at Amazon. As a Senior Talent Acquisition Manager, I've seen how its AI-powered video interviews help us screen candidates quickly and effectively. Their AI sorting feature enable us to identify top talent that fits our culture. I highly recommend Beatview for any organization looking to enhance their hiring efforts!

Michael F

Senior Talent Acquisition Manager at Amazon
